# Company Overview

Al Andokal Limited specializes in waste management, cleaning services, and water supply solutions, providing reliable and efficient services to residential, commercial, industrial, and construction sectors. We are committed to maintaining clean, safe, and sustainable environments through responsible waste collection, transportation and waste disposal.

In addition to waste management, we offer comprehensive cleaning services, including facility cleaning, site maintenance, and sanitation solutions tailored to meet client requirements. Our water supply division ensures the timely delivery of clean and safe water for construction projects, industrial operations, and community needs.

With a focus on quality, safety, environmental responsibility, and customer satisfaction, our experienced team and modern equipment enable us to deliver dependable services that support healthier communities and sustainable development.

# KEEP THE SCENE CLEAN

## Mission:

To provide sustainable waste management, professional cleaning, and reliable water supply services while promoting environmental protection and customer satisfaction.

LITTER IS POLLUTION  
**WE ARE THE SOLUTION**

## Vision:

To be a trusted leader in environmental and support services, delivering innovative solutions that contribute to cleaner and healthier communities.
